Exhibition organizer:

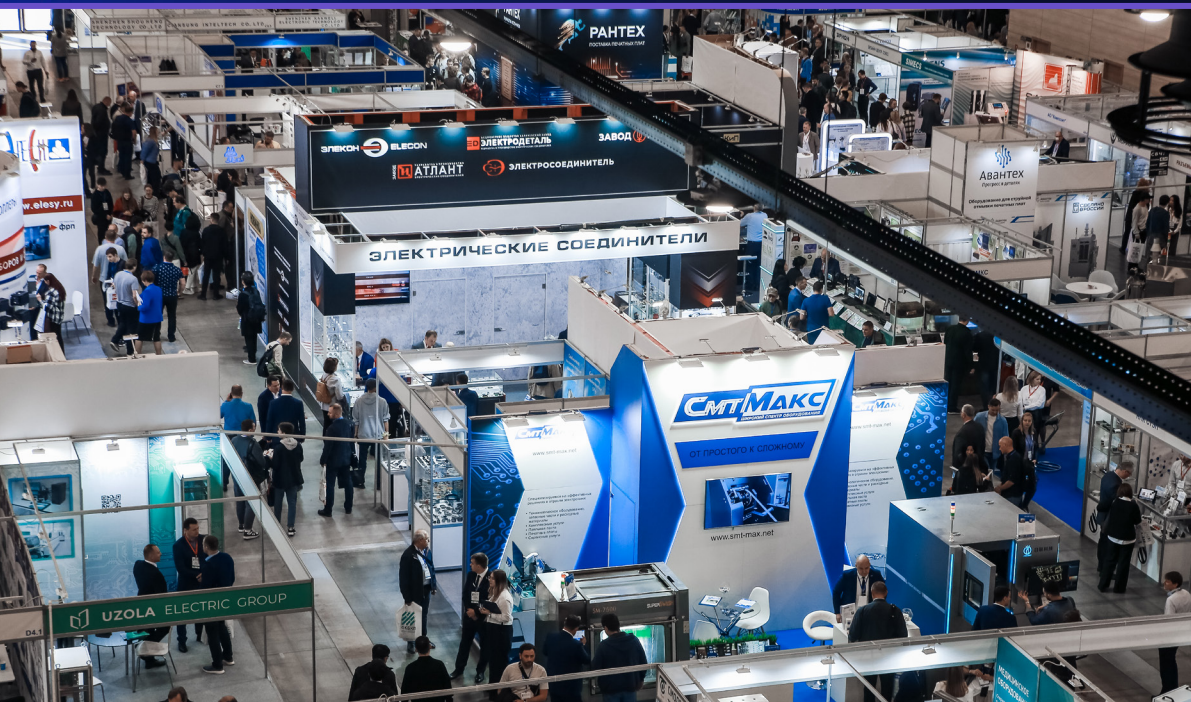

# XXVI INTERNATIONAL EXHIBITION AUTOMATION

The largest exhibition in Russia, which focuses on the automation of production processes and attracts more than 15,000 specialists from the industrial sector of the economy.

Year after year, by increasing the exhibition area, strengthening advertising and increasing the flow of professional visitors, we have turned the «Automation» exhibition into a large-scale industry event in Russia and neighboring countries, allowing participants not only to increase sales and expand their client base, but also to influence preferences and shape market trends.

**More than 5000  
sq.m.**

**More than  
15 000 visitors**

# EXHIBITION THEME

# XXVI INTERNATIONAL EXHIBITION AUTOMATION

## Industrial automation

- Industrial personal computers
- Industrial control systems (PLC, SCADA, MES)
- Drivers, sensors, motors, actuators, linear motion and positioning systems
- Embedded systems
- Assembly and processing systems
- Software for production management
- Big data, cloud solutions, augmented reality
- Industrial Internet of Things (IIoT)
- Industrial control components

## Robotic technologies

- Industrial robots
- Robotic carts
- Machine vision
- Artificial intelligence
- Integrated solutions

## Instruments and housings

- Electrical measuring instruments, as well as
- temperature, pressure, flow, level measuring instruments
- Control valves
- System components, connectors
- Cabinets, instrument panels, housings, tables, housings, pumps, valves, switches, power supply, safety

## Electrical Systems

- Converters, Batteries and UPS
- Power Supplies
- Gearboxes, Mechanical Drive Systems
- Electrical Switchgear and Electrical Equipment
- Control Systems
- Testing and Diagnostic Equipment
- Electric Motors and Frequency Inverters
- Cables and Cable Accessories
- Electronic and opto-electronic components

# XXVI INTERNATIONAL EXHIBITION AUTOMATION

Rapid changes in the market, reorientation of the economy, acute problems of supplies in the field of industrial automation create favorable and, as never before, advantageous conditions for entering the Russian market and the markets of neighboring countries.

The ExpoForum exhibition centre has convenient transport accessibility, provides exhibitors with first-class exhibition space, and is also a platform for cooperation, trade and exchange of experience that meets the highest international standards.

# XXVI INTERNATIONAL EXHIBITION AUTOMATION

In parallel with the exhibition "AUTOMATION", a specialized exhibition "RADIOELECTRONICS AND INSTRUMENTATION. RADEL-2025" is held. Such collaboration allows participants and visitors to feel the synergy of digital electronics with the digitalization of business, to create a strong news item for partners in order to increase sales, attract a new audience, and form a strategy.
